Team ForzaVJTI
IKR-2023

About The Club

The Official SAE Collegiate Club of VJTI

Established in 2008, VJTI Racing is a student organisation for all automobile enthusiasts in the institution. The team provides a platform for young engineers to bring their innovative ideas into action through the various global competitions and workshops we participate in every year.

A youthful spark and the drive to engineer an end product to be proud of, is a vision shared by all the members of the club.

About The Team

Formed as a first time initiative for among second and third year engineering undergraduates, ForzaVJTI is a team of highly motivated and capable team of budding Engineers. Having being backed by an institution with timeless real world credentials, professors and an award winning team of Seniors to mentor us all through victory.

How was this team formed:

Being a part of this team was a highly contested spot. To make sure only the

best make it here, a multi stage selection process was conducted to ensure the optimum competency.

First, applicants were provided with video material, relating to this field. Based off this

material, a series of interviews were conducted by our seniors, to assign sectors. Further, assignments have been provided to quantify progress. Then, applicants were trained and assessed on their Solidworks skills. The Top 30 of the Solidworks round, of the 250 were selected for further, tougher, more focused interviews...

Out of these 30, the best 23 were selected to constitute this team. 23 of the very best that VJTI has to offer from their SYs and TYs.

About The Event

IKR is a design and manufacturing of Go-kart event under ISIE Design Restriction and FMSCI/CIK/FIA so as to compete with other teams all over the country from different backgrounds and organizations. Our team will be participating in the 8th season of the Indian Karting Race.

The teams will be judged on their performance, financials, presentation, organization, making it a very competitive event.

More than 60 teams from all over India come display their skills in this event.

Meet The Team!

The Senate:

Captain

Vishal Sejpal

Technical head of the team, responsible for working and completion of project.

Vice Captain

Ashwin Dias

Administrative head of the team, responsible for smooth operation and overall logistics.

Sponsorship Head

Anish Dhar

Responsible for developing and maintaining relationships with the team sponsors.

Treasurer

Sarthak Pawar

Responsible for overall accounting and management of team's financial resources.

Technical Members:
